how to send us your photos using cheek retractors

All you need is your mobile phone camera. Take the photos ensuring that the flash is turned on. You will need someone to help you take the photographs.
NOTE: Do not use selfie mode.

Angles: Using the Retractor take a total of 10 photos following the example angles given.

Tip: Hold the phone as close as possible to the teeth. Ensure the images are clear and in focus.

Email to: dm@theorthopractice.com.au

Please attach your best **10 photos** and be sure to include the patients first and last **name** in your email.
